Jeonju City

Jeonju, 240km(144miles) south of Seoul, is the capital city of the Jeollabuk-do province. The city is known for its history and artistic traditions. It is also the birthplace of Yi Dynasty where the Yi family ruled the country from 1910 to 1932. Landmarks nearby the CBNU campus include the Jeonju Stadium and the Jeonbuk Bank Building.

When you arrive at Incheon international Airport, the most convenient way to get to Jeonju is to take the Airport Limousine Bus.

CBNU Feeling Korea Special Features

1 Jeonju, the city of Tradition

Known as the most traditional Korean city in Korea, Jeonju offers a myriad of places to visit and traditional foods to eat, like bibimbap. Hanok Village (village of traditional Korean houses) will give you a glimpse into ancient Korea

2 Practice in Traditional Korean Culture

Students can take classes in Korean Language and Cultural Experience, where they will get an opportunity to practice traditional Korean customs and arts. Having organized this programme for many years under the title of "Feeling Korea," students will receive a thorough introduction to Korean culture.

3 Practical use of the Korean Language

Thanks to bustling streets around the CBNU campus, students can easily and practically put to use language skills acquired throughout the programme. After just a few days, students will enjoy the satisfaction that comes with shopping and ordering in the cafes allowing them a glimpse of life in Korea as lived by the Korean people.

4 Korean Buddies

Students will have a chance to socialize with Korean Buddies that will be with them throughout their "Feeling Korea" experience. The buddies will be a guide, friend and gateway to lives of Korean students, further enriching the time spent in Korea. The buddy scheme will complement the Traditional culture experienced with that of the modern day youth culture. As past students have found, buddies will not just be for the time in Korea, but long-term friends that will provide a link to Korea and continued language exchange.
